A two year rotational program - starting in September 2024

Are you passionate about people management, improvement of processes, change

management, project management, performance or quality? You can see yourself working within the operations in our sorting centers or in our mail centers? Then you could be a match! You will be working on three projects, of which each will take eight months. During these two years, you will be taking on different projects or different existing roles in three teams in the core of our business. You could work in one of our sorting centers where we sort-out thousands of parcels and letters on a daily base. Later one of our Mail Center Managers could guide you on the daily operations of the distribution of these parcels and letters with our mailmen. To end your traineeship on a high note, your last project will be based on your own preference. The goal will be for you to discover several places & managers and to share best practices with other trainees working in other places.

Every opportunity to make your mark and grow

Just like you, we believe in your capacities. We think of our group trainees as our future leaders, so we want to help you to become the best version of yourself. bpost brings together millions of people on a daily basis, in Belgium and beyond.
