

Network Solution Architect

BRUSSELS

External Description

Network Solution Architect

We are seeking a highly skilled and experienced Network Solution Architect to join our team. The ideal candidate will possess deep expertise in designing, implementing, and optimizing complex National & International network solutions that meet both current and future business needs.

Your mission:

As a Network Solution Architect, you will work closely with cross-functional teams, including IT, engineering, and business stakeholders, to ensure that network infrastructure aligns with strategic goals and delivers high performance, security, and scalability. You will be responsible for:

- Design and develop comprehensive network architectures that support business objectives and IT strategies.
- Ensure that network solutions are scalable, secure, and meet industry best practices.
- Evaluate new technologies and provide recommendations to improve network infrastructure.
- Develop detailed design documentation, including network diagrams, configurations, and operational procedures.
- Collaborate with IT and business teams to understand requirements and translate them into effective network solutions.
- Define and implement network standards, policies, and procedures.
- Lead the deployment and integration of network solutions, ensuring minimal disruption to business operations.
- Oversee the installation, configuration, and maintenance of network hardware and software.
- Ensure seamless integration with existing IT infrastructure and applications.
- Monitor network performance and implement solutions to optimize efficiency, reliability, and scalability.
- Troubleshoot complex network issues and provide advanced support to resolve them.
- Implement network monitoring tools and processes to ensure proactive management of the network environment.
- Present technical concepts and solutions to non-technical stakeholders in a clear and concise manner.
- Work closely with business units to align network solutions with business goals.

- Provide guidance and mentorship to junior network engineers and other IT staff.
- Stay up-to-date with emerging technologies and industry trends.
- Participate in continuous learning and development opportunities to maintain expertise in networking technologies.
- Lead initiatives to drive innovation and improvement in network design and management.

Your profile:

We do not only deliver letters and parcels, but also opportunities. This job is open to all with diverse backgrounds and talents, possessing the following skills:

- 8+ years of experience in network engineering, with at least 3 years in a network architecture role.
- Extensive experience with network design, implementation, and troubleshooting.
- Proficiency in networking technologies such as routers, switches, firewalls, VPNs, load balancers, and SD-WAN.
- Strong understanding of network protocols (e.g., TCP/IP, BGP, OSPF, MPLS).
- Knowledge of cloud networking solutions (e.g., AWS, Azure, Google Cloud) and hybrid cloud environments.
- Experience with automation and orchestration tools (e.g., Ansible, Terraform)
- Familiarity with network security practices and technologies (e.g., IDS/IPS, firewalls, VPNs, NAC) is a plus.
- Strong verbal and written communication skills, with the ability to conduct presentations and training.
- Open-mindedness and a collaborative approach, capable of engaging with various stakeholders.
- Leadership qualities to gain trust and respect from the team and other departments.
 - Analytical Skills: Ability to analyze complex data and make strategic recommendations.
 - Fluency in English is required; knowledge of French or Dutch is a plus.
- Preferred Certifications: (CCIE) / (CCNP) / (CISSP) / Cloud Certified Solutions Architect

Our offer:

Like a long-awaited parcel, we want to make you feel welcome and valued. Our offer includes:

- Competitive monthly salary
- Meal vouchers
- Hospitalization-, group- and disability insurances
- A phone subscription and company car
- 20 days of statutory leave and 7 additional extralegal days off
- An end-of-year and performance-based bonus and double holiday pay
- Many benefits from more than 100 bpost-partners
