Network Solution Architect

BRUSSELS

External Description

Cloud Network Solution Architect

We are seeking a highly skilled and experienced Cloud Network Solution Architect to join our team. The ideal candidate will possess deep expertise in designing, implementing, and optimizing complex National & International network solutions that meet both current and future business needs.

Your mission:

As a Cloud Network Solution Architect, you will ensure that Cloud Network & Security infrastructure aligns with strategic goals and delivers cost-efficient, performant, secure, and scalable solutions. You will be responsible for:

- Ensure that Cloud Network & Security industry best practices are met
- Evaluate new technologies & products, and provide recommendations to improve Cloud Network infrastructure
- Develop detailed design documentation, including network diagrams, configurations, and operational procedures.
- Participate to the elaboration of the Vision, Strategy and Roadmap for the Cloud (Network & Security) / Backbone infrastructure, supporting Bpost in its digital transformation
- Lead the deployment and integration, ensuring minimal disruption to business operations
- Automate and provide re-usable IaC code to Business units
- Troubleshoot complex network issues and provide advanced support to resolve them
- Present technical concepts and solutions to non-technical stakeholders in a clear and concise manner
- Stay up-to-date with emerging technologies and industry trends

Your profile:

We do not only deliver letters and parcels, but also opportunities. This job is open to all with diverse backgrounds and talents, possessing the following skills:

- 8+ years of experience in network engineering, with at least 3 years in a network architecture role.
- Relevant experience of cloud Network & Security solutions (AWS, Azure) is a must
- Relevant experience with automation and orchestration tools (Ansible, Terraform) is a must
- Experience of SDWAN/SASE (Secure Access Service Edge) legacy solutions (Cisco/Forti SASE) and SaaS (Zcaler, Cloudflare, Netskope) is a strong asset
- Knowledge of the main Zero Trust concepts is a strong asset (ZTNA, SWG, FwaaS)
- Strong verbal and written communication skills, with the ability to conduct presentations

- Analytical Skills: Ability to analyze complex data and make strategic recommendations
- Fluency in English is required; knowledge of French or Dutch is a plus.

- Preferred Certifications: Cloud Network & Security certifications is a nice to have

Our offer:

Like a long-awaited parcel, we want to make you feel welcome and valued. Our offer includes:

- Competitive monthly salary
- Meal vouchers
- Hospitalization-, group- and disability insurances
- A phone subscription and company car
- 20 days of statutory leave and 7 additional extralegal days off
- An end-of-year and performance-based bonus and double holiday pay
- Many benefits from more than 100 bpost-partners
