

Network Security Solutions Architect

BRUSSELS

External Description

Network Security Solution Architect

We are seeking a highly skilled and experienced Network Security Solution Architect to join our team. The ideal candidate will possess deep expertise in designing, implementing, and managing secure national & international network solutions that protect our organization's critical infrastructure and data.

Your mission:

As a Network Security Solution Architect, you will work closely with cross-functional teams, including IT, engineering, and CISO stakeholders, to ensure that network infrastructure delivers the expected level of Security. You will be responsible for:

- Develop and maintain comprehensive network security architectures that align with industry best practices and business requirements
 - Evaluate new technologies & products, and provide recommendations to improve Network Security infrastructure
 - Participate to the elaboration of the Vision, Strategy and Roadmap for the Network Security infrastructure, supporting Bpost in its digital transformation
 - Architect and lead the deployment and configuration of security technologies such as firewalls (Palo Alto & Fortinet), IDS/IPS, SSL/IPSEC VPNs, forward/reverse proxies, DDoS protection
 - Conduct security risk assessments to identify vulnerabilities and recommend mitigation strategies
 - Ensure compliance with relevant industry standards, regulations, and frameworks such as ISO 27001, NIST2, DORA, and GDPR
 - Stay updated on the latest security trends, threats, and technologies, and proactively recommend improvements to existing security architectures
 - Create and maintain detailed documentation for network security designs, configurations, and procedures

Your profile:

We do not only deliver letters and parcels, but also opportunities. This job is open to all with diverse backgrounds and talents, possessing the following skills:

- 8+ years of experience in network security engineering, with at least 3 years in a network security architecture role
- Proven experience designing and implementing secure network architectures in complex enterprise environments

- Experience of SDWAN/SASE (Secure Access Service Edge) legacy solutions (Cisco/Forti SASE) and SaaS (Zcaler, Cloudflare, Netskope) is a strong asset
- Knowledge of the main Zero Trust concepts is a strong asset (ZTNA, SWG, FwaaS)
- In-depth knowledge of networking protocols, firewall management, VPNs, IDS/IPS, and encryption technologies
- Hands-on experience with security tools such as Cisco ASA, Palo Alto Networks, Fortinet, Check Point, or similar
- Understanding of the Cloud infrastructure Security components
- Experience with automation and orchestration tools (e.g., Ansible, Terraform) is a plus
- Strong verbal and written communication skills, with the ability to conduct presentations
- Analytical Skills: Ability to analyze complex data and make strategic recommendations
- Fluency in English is required; knowledge of French or Dutch is a plus
- Preferred Certifications: CISSP; CISM; CCSP; CCIE Security; Fortinet

Our offer:

Like a long-awaited parcel, we want to make you feel welcome and valued. Our offer includes:

- Competitive monthly salary
- Meal vouchers
- Hospitalization-, group- and disability insurances
- A phone subscription and company car
- 20 days of statutory leave and 7 additional extralegal days off
- An end-of-year and performance-based bonus and double holiday pay
- Many benefits from more than 100 bpost-partners
